

SPEAKERS BUREAU

driving safely around bicyclists and pedestrians

This interactive presentation focuses on ways motorists can avoid the most common types of collisions, and what the traffic laws are related to bicycling and walking. Choose between 30-min or 45-min versions.

bicycle safety

A presentation on riding your bicycle safely and the Tennessee traffic laws.

bike commuting 101

Do your employees want to get started biking to work, but have some questions? A brief presentation followed by time for questions and discussion.

Whether you are a casual bicyclist, only ride greenways, haven't been on a bike in years, or never learned to ride, we have a class for you!

biking for beginners

the basics, in a safe & traffic-free environment

Ride smart: urban biking 101

the essentials of intersections and city riding

Getting back on a bike

if you haven't biked since childhood

Learn to ride: adults

didn't learn as a kid? Now is your chance!

Group rates available for worksites or clubs.
